

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

the Isthmus of Panama, Port Royal in Jamaica, and on the voyage to New York. One by Dr. J. K. Townsend, describing a new species of American wolf, *Lupus gigas*, Townsend, of North America, published in Journal.

It may not be improper, while enumerating the communications, to direct attention to a letter from Dr. Joel Y. Shelly, accompanying fossil remains of a supposed saurian found in Upper Milford, Lehigh county, Pennsylvania. Although not personally acquainted with this locality, it is believed to belong to a formation anterior to the coal, and it may be coeval with the period of the fossil foot prints in red sandstone described by Dr. A. T. King in Proceedings for December 1844, and December, 1845. If this supposition be correct these are probably very old and interesting remains of vertebrate animals and are therefore deserving of attention.

It seems improper to close a notice of the records, without briefly advertng to the very large portion of them occupied by mere lists of the munificent donations received throughout the year. The constant liberality with which so many of the wants of the Academy are supplied, must be a rich source of gratitude in the hearts of all its friends, and while an exquisite and high toned delicacy on the part of a distinguished benefactor forbids me to breathe his name, his generous gifts are appreciated among our richest treasures. All which is respectfully submitted by

SAMUEL POWEL,

Recording Secretary.

Philadelphia, January 28th, 1851.

ELECTION OF MEMBERS.

John Jordan, Jr., Esq., and B. Howard Rand, M. D., of Philadelphia, were elected *Members* of the Academy.

Election of Standing Committees for 1851.

The following committees on the various departments of Science, &c., were elected to serve for the year 1851.
